Dentists to Help Uncle Sam Prepare for War

BUFFALO, N. Y., June 16.—The Preparedness League of American Dentists, with headquarters in this city, has opened a registration bureau in the hope of enrolling 25,000 dentists who will each agree to prepare, free of charge, the mouth of at least one applicant to meet the requirements for enlistment in the army, navy, or marine corps, and subject to such rules as shall protect them against imposition.

The standard of enlistment for the United States Marine Corps requires the applicant to have at least twenty sound teeth, with four opposed molars and four opposed incisors. Properly filled teeth are counted as sound, and many men now rejected for defective teeth will be saved to the "first line of defense" by the patriotic members of the Dentists' Preparedness League, is the belief of league officials.

Dr. J. W. Beach, of Buffalo, is chairman of the registration committee.

Typist, Pool Expert, and Bookkeeper Is Handless

LEMOYNE, Pa., June 16.—Without hands, Luther M. Cranford, president of the West Fairview council, holds a reputation of writing a fine style of penmanship, shorthand at 100 words a minute, twenty-five words a minute on the typewriter and is a "shark" at shooting pool.

Mr. Cranford is forty-two years old, was born in the town and has always lived there. He is a bookkeeper and has been a seaman of the town for ten years. His summer pastimes are canoeing, hunting and boating.

Los Angeles Now Leads American Cities in Area

LOS ANGELES, June 16.—The annexation of Westgate and Occidental to the municipality of Los Angeles, ratified by the voters at a recent election, makes Los Angeles the largest municipality in the United States in point of area.

It now has a total area of 337.92 square miles, crowding greater New York with an area of 314.75 square miles into second place. Chicago is third with 195, and Philadelphia fourth, with 135. Los Angeles has a population of 800,000.

Congressman Recovering.

Congressman Julius Kahn, of California, is slowly recovering at his home, 1718 Euclid street northwest, from injuries sustained in a fall at Laurel, Va., last Friday, when five ribs were broken. There are no internal injuries, as was at first supposed.

BETTER HEALTH FOR PEOPLE EVERYWHERE—TRIUMPH OF TANLAC

Druggists Say Success in Actual Tests Backs Its Success in the Trade.

Tanlac's triumphs have been both swift and steady. The quickness with which ailing men and women accepted it as its introduction to the public less than two years ago is equaled by the steady demand with which it is welcomed today.

So great is this demand, based upon the proven merits of the great reconstructive tonic and upon the unstinted praise and unqualified endorsement given by thoughtful men and women, that the big world of business has taken heed of Tanlac.

Druggists who had handled proprietary medicines for years were startled with the record. Accustomed to sales hitherto considered large, they could find no precedent, not even a basis of comparison for the success of Tanlac.

The druggists soon discovered the reason of Tanlac's triumph in the store. It was Tanlac's triumph in the home. Tanlac has brought prosperity to many, because it has made them equal to their tasks—fit for their jobs—eager to do their work, whether it is the work of a housewife, the teacher, the clerk, the preacher, or professional man, baker, merchant and manufacturer, mechanic, laborer, and farmer.

As you read the recommendations of Tanlac you will be impressed with the frequency of some expressions: "It has made a new man of me," "It has made me feel like a new man," "I am gaining weight," "Tanlac has put dollars in my pocket."

"I can do more work than ever before."

As a tonic for rundown men and women who need better digestion, more strength, more flesh, regulated circulation and a revitalizing of the nervous system, Tanlac, The Tonic Supreme, has no equal.

PHYSICAL CULTURE EXPERT PRAISES TANLAC

Says It Made Him Work With a New Spirit.

Liver Trouble and Indigestion Finally Routed by the Tanlac Treatment.

Mr. Arthur O'Shea of 4 Duane avenue, Schenectady, N. Y., says that he cannot speak too highly of Tanlac. He is a physical culture expert.

"I was troubled with indigestion and liver trouble, and used to have severe pains in my stomach, especially after my meals. I lacked energy and always felt languid and tired. My sleep was broken and at times I would lie awake for hours. Naturally, when I got up in the morning, I didn't feel rested."

"A friend of mine recommended Tanlac to me. I have now taken four bottles and feel ever so much better. I have ambition and work with a new spirit, and I enjoy my work now, and that is something I have not done for a long time. I have already recommended Tanlac to several of my friends who feel like new."

"I am gaining weight," "Tanlac has put dollars in my pocket."

"I can do more work than ever before."

Eighty Years Old, Takes TANLAC

Retired Locomotive Engineer Enthusiastically Indorses the Master Medicine.

FEELS YOUNG AGAIN

Tanlac has become universally known. It has rendered aid to the young as well as the old. Mr. E. S. Terry, of 141 Barry street, Schenectady, N. Y., is possibly one of Schenectady's best known citizens. He is a retired engineer and now, thanks to Tanlac, enjoys health at the time of life when he has passed his eightieth birthday.

In conversation with the Tanlac representative, Mr. Terry said that he was indeed very grateful for what Tanlac has done for him. But let us quote his own words:

"I have spent 25 years as a locomotive engineer and I used to eat a lot of cold meals and that is what gave me my stomach trouble. In the first place, I suffered generally from dyspepsia and this stomach trouble, and used to be troubled with gas which gave me a terrific pain, after my meals. I have been bothered this way for many years. I couldn't eat anything at all, before I took Tanlac, unless I suffered from it. At times the suffering would be so great that I was laid up in the house for five or six days at a time. I am eighty years old and was as sound as a dollar, except for my stomach trouble."

"A friend recommended Tanlac to me because it had done him so much good. I have taken only two bottles and it has fixed me up so that I feel like a young man again."

"Tanlac, which is an unusual remedy in its benefits to both old and young, is a very useful system tonic, invigorant and combatant of ills. Especially at this time of year when we are so susceptible to the ills that lurk in the air, is Tanlac of great value in warding off sickness."

TANLAC "The Premier Preparation"

The Most Satisfactory Tire Equipment: Michelin Universal Treads and Red Tubes

The Michelin Universal Tread Casing, the latest product of the house that made the first pneumatic tire, combines all the advantages of non-skids of both the raised-tread and suction-tread types.

This casing weighs from 12 to 15% more than the average because of its Extra Rubber and Fabric and this means extra mileage

A Word About Tubes

Michelin Red Inner Tubes are compounded of certain quality-giving ingredients which prevent them from becoming brittle or porous and preserve their velvety softness indefinitely, and they are shaped to fit the inside of the casing without stretching on the outer circumference or creasing next to the rim.

Michelin Casings and Red Tubes Are Not High Priced! Just Compare These Prices With What You Have Been Paying!

Size	Q.D. Straight Side	Q.D. Clincher	Red Inner Tubes
22 x 3 1/2	\$19.50	\$9.65
24 x 4	24.00	\$24.00	4.66
26 x 4 1/2	28.00	28.00	5.00
28 x 5	29.00	27.50	5.50
30 x 5 1/2	33.00	32.00	6.55
32 x 6	38.70	36.70	6.80
34 x 6 1/2	44.00	38.00	7.50
36 x 7	49.00	41.00	8.55

Also made in soft hand clincher also 32x6, price \$12.35

Prices effective Feb. 1, 1916, subject to change without notice.

Notice the curve in which the Michelin Tube naturally hangs—

Instead of being simply a piece of straight tubing cemented at the ends, the Michelin Tube is formed on a circular mandrel in the shape of the inside of the casing. Thus when inflated it is neither stretched on its outer side nor compressed into destructive wrinkles next to the rim. This perfect fit gives the Michelin Tube greater durability and practically eliminates danger of pinching the tube.
